### Financial Conditions

New York, Aug. 5.—Developments in the financial district today were most reassuring. Bankers were inclined to a most cheerful view despite the greater scope of the conflict abroad. Cables from London suggested a hopeful outlook in the financial sense, with prospects favoring an early reduction in the British rate.

Wall street's greatest problem—the disposition of a large amount of American resources brought over by the Olympic—found early solution in the willingness of banks to facilitate deliveries of stocks, most of which were sold here for "future delivery" immediately preceding the close of the exchange.

There was some inquiry for the better known stocks at prices a point or more over last Thursday's quotations but sales were moderate and trading limited to outside brokers.

Money markets maintained their nominal tone of recent days. Some banks advanced loans from six to eight per cent but the former rate prevailed in most cases. Banks were loath to renew expiring loans on the ground that the absence of trading made it unnecessary and that it was deemed best to strengthen the reserves.

Nevertheless arrangements were under way for the completion of large loans, possibly up to \$50,000,000 to the cotton planters whose affairs are confused by reason of the war.

Loans made probably will stand until the staple can be shipped to foreign ports without danger.

Foreign exchange was nominal with transactions at a minimum.

Financial advice from all parts of the country showed inherently sound conditions. Balances at the local clearing houses again were paid largely in clearing house certificates together with emergency currency.

Application at the sub-treasury today absorbed about two thirds of the \$5,000,000 currency on hand there. Savings banks mostly were free from anything in the nature of a run.

Steel and iron quotations were today withdrawn by leading manufacturers.

An incident pointing to the attitude of some of the larger industrial companies at this time was the declaration of a six per cent "crip" dividend, by the American Tobacco Co., payable a year off, instead of the regular quarterly 5 per cent dividend. Embargo on export freight continued by exporters hope England will find some means of opening safe traffic to Europe.

## MARKET REPORT

Chicago, Aug. 5.—Notable broadening of speculative business on the change today accompanied the entrance of Great Britain into a general European war. Despite the enforcement of ten per cent margins, the public at large would not be restrained from taking a liberal hand at trading in which rapid price changes covered a range of more than 4 cents a bushel, and which resulted in an extreme net advance of 3 1-4c for wheat.

Export conditions were in greater confusion than at any time since the war began. Notwithstanding that a majority of the dealers looked for a solution being reached through the action of the treasury department at Washington in lieu of the seemingly futile efforts of London, the prospect of success was sufficiently doubtful to keep the leaders if not the public in a conservative mood.

One of the most serious features of the wheat trade was the fact that 20,000,000 bushels intended for export, was held up in virtual blockade at Galveston and New Orleans. With the big Gulf outlet choked, southwestern train loads were being held for Chicago and unless relief should be afforded were threatening to swamp temporarily the market here.

### THE DAY IN CONGRESS

Washington, August 5.—Senate met at 11 a. m.

JOHN SHARPE WILLIAMS RESIGNS Committee's Non-Support of Mediation Policy and Other Reasons, Cause.

(By Associated Press.) Washington, August 5.—Senator John Sharpe Williams today resigned as a member of the foreign relations committee. He declared in a speech on the floor of the senate that he wished to sever his connection with the committee because it had hesitated to support the administration's policy as to mediation and because of its "equivocal" attitude regarding the purchase of ships to carry cotton and other goods abroad.
